**O'CONNELL IGNORED
BY LEE FORCES**

Place Which Should Have Gone to Republican Alderman in Eighth Given to Water Company Engineer.

MAY RUN THIRD TICKET

Friends of Alderman John O'Connell of the Eighth district are indignant because the so-called regular Republicans met last night, framed up a ticket and left off the name of the alderman. The reason the so-called regulars did not put the name of the alderman on the ticket was that he was not in favor of a pledged delegation. The machine wanted a Lee delegation and they held a meeting last night without letting O'Connell or any of his friends know about it. The delegates to the Republican city convention are Charles A. Nichols, real estate man, Edward B. Greene, engineer for the Bridgeport Bridge and Co., and Frank Caseria, a shoemaker in North Washington avenue.

Alderman O'Connell said this morning he had not been consulted in the matter at all and he thought that too much hurry had been evinced by some of the people in the district to get tickets named. The alderman thought in view of the fact that he had a few friends in the district and was the first man to ever be elected there on the Republican ticket that he might have been consulted in regard to the make up of the ticket. Asked if he would yield to the requests of his friends and put another ticket in the field for control of the district, he said, "I may do something like that, but I am not prepared to say what I shall do about it this time. I think all of the voters should have something to say about what goes on the delegate ticket."

The regulars who made up its ticket last night said that O'Connell was suspected of being for anybody except Mayor Lee and they were not taking any chances.

The followers of Harbormaster Chas. A. Morris have selected a ticket in the eighth district composed of Robert Farrell, Peter Chesebrough and Thomas Watt and if Alderman O'Connell makes up his mind that he is going to have a ticket of his own there will be a three cornered fight in the district.

A supporter of the Lee ticket this morning said he hoped that the O'Connell faction would tie up with the Morris crowd as the strength of the harbormaster is growing daily.

Out in the Fifth district last night there was a meeting which selected Harry H. Pritchard, John R. Carter and John Packard Gray as delegates to the Republican convention. The matter of choosing a candidate for alderman was left to the delegates.

CITY BRIEFS

The Bridgeport Branch of the National Association of Stationary Engineers will hear experts from the General Electric Company explain, at a meeting to be held Oct. 20, the advantage of turbine engines using exhaust steam. At the same time the reports of P. J. Grace and C. D. Osborne, who were delegates to the National convention held in Columbus, O., will be heard.

John King, a notorious pickpocket, was sentenced to not less than one nor more than three years in the state's prison in New Haven yesterday. He pleaded guilty to the charge of attempting to pick the pocket of Herman Sporing, a livyerman of this city.

The Fifth district Republican club elected officers last night as follows: President Dudley P. Bullard, vice-president John P. Gray, secretary, Louis A. Kornblut, treasurer M. J. Greenstein.

The Standing committee of the West End Congregational church will give a reception to all members and friends of the church this evening in the church parlors. A short program will be given, but the larger part of the evening will be devoted to social intercourse. It is hoped by the committee that all members and friends of the church will be present. Strangers in the city are especially welcome.

A meeting of the members of the Bridgeport club was held last night in the club rooms. A committee was named to devise means of raising money. It appears that during the summer the club has run behind. It was decided that an increased membership is necessary if the club is to be maintained upon its present scale.

The Federation of Men's Church clubs of Bridgeport and vicinity, will hold their regular meeting in the parlors of the First Baptist Church this evening at eight o'clock. Several matters of importance will be discussed and plans made for definite work of the Federation which covers some activities proposed for this Fall and Winter.

Mr. Bartram was a man of pleasing address and had many friends. He was the son of the late Frederick A. Bartram, who founded F. A. Bartram & Co., pork packers. **TRIUMPHS of
The PIANOLA**

Twenty-six Pianola Pianos went round the world with the fleet. Another is back from the Arctic Circle. They all "made" good" despite climatic variations and extremes.

The great prestige of the PIANOLA is founded upon its superiority from a constructional as well as a musical standpoint. The PIANOLA represents a higher order of workmanship, a better grade of materials, a more careful adjustment of parts than any other player. These constructional advantages are clearly illustrated by the high degree of satisfaction this instrument has given on various voyages of exploration, and on the American battlefleet's trip around the world.

The reasons which prompted the selection of the PIANOLA in preference to any other Piano-player for these voyages are just as forcible in the case of every individual purchaser.

But besides its constructional superiority the PIANOLA is the only player that has the METROSTYLE enabling anyone to reproduce the exact interpretation affixed by the composer.

CAUTION—Do not make the mistake of supposing that "PIANOLA" is a general name for all Piano-players. It applies exclusively to the instrument made by the Aeolian Co.

A new charge may be brought against S. A. Alderman, the New Haven junk dealer who was arrested in connection with the theft of a large amount of copper from a freight car at Waterbury some time ago.
